Upright Training Walker for Children with Cerebral Palsy

The Tulip Upright Training Walker is specially designed to support children with Cerebral Palsy in developing safe, confident mobility. Its durable stainless steel frame, upright posture support, and lockable wheels provide stability, comfort, and independence at every step.

- Durable Stainless Steel Frame
- Fully Height-Adjustable Design
- Upright Posture & Natural Gait Support
- Lockable Safety Wheels
- Padded Secure Support

Watch your child stand taller, move freely, and gain the confidence to explore their world.

Key Features & Benefits

1 Durable Stainless Steel Frame

Heavy-duty construction ensures maximum stability and long-term reliability.

2 Fully Height-Adjustable

Adapts as your child grows, ensuring ergonomic alignment at every stage.

3 Upright Posture Support

Encourages proper standing position and promotes a natural walking pattern.

4 Padded Support Sling

Soft, secure torso and pelvic supports provide comfort and confidence.

5 Smooth-Rolling Wheels

Four maneuverable wheels allow easy indoor & outdoor mobility.

6 Lockable Safety Brakes

Casters can be locked securely to prevent unwanted movement.

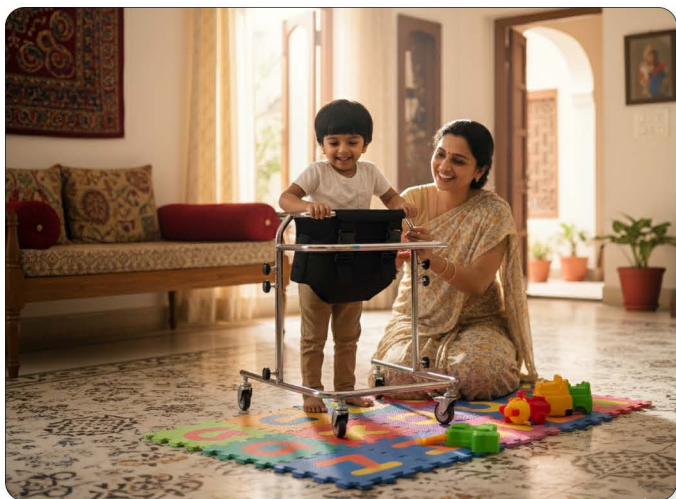

Benefits for the Child

- Builds confidence and independence
- Improves balance and motor coordination
- Encourages muscle development
- Promotes upright posture and breathing support
- Enables active participation in daily activities

Benefits for Caregivers

- Reduces fear of falls
- Minimizes physical strain during therapy
- Provides long-term value as the child grows
- Easy adjustments for daily use
- Supports effective therapy sessions

At home therapy made easier

Safer gait training sessions
